Polywater® PJ Pourable Lubricant

Polywater® PJ is a pourable version of the popular Polywater® J High Performance Pulling Lubricant. "PJ" offers the same proven features as "J" in such key areas as lubricity, cable compatibility, residue fire resistance, and ease of cleanup—yet it's easier to apply where pouring is practical.

Why a Pourable Lubricant?

Application! Convenience!!

- For the horizontal pulls typical in underground construction, "PJ" pours directly into the feeder or guide funnel, avoiding the mess of hand application. No need to touch or handle the lube . . . less cleanup time!
- "PJ" is easier to pump than the gel lubricants. It's less strenuous to pump a few gallons into the conduit.
- "PJ's" viscosity makes it easier to spread the lubricant throughout a conduit, providing effective lubrication at all friction points.

Product Number	Package Size
PJ-Drum	55-gallon drum (208 ℓ)
PJ-640	5-gallon pail (18.9 ℓ)
PJ-320	2½-gallon jug (9.6 ℓ)
PJ-128	1-gallon jug (3.8 ℓ)

*Also available in a winter-grade formula
